

Is your house address visible from the street on a dark rainy night?

North Whitehall Township Emergency Services Organization is selling green metal address signs with white reflective numbers for a cost of \$10.00.

During a heavy downpour, a blinding snow storm, or a foggy night your house number may not be visible from the street as well as you think it is.

When the fire company, ambulance or State Police are trying to locate your house in response to an emergency call, minutes matter.

These 911 address signs are highly visible at night and during bad weather, and will save precious minutes when First Responders are looking for an address.

The signs will have your address displayed on both sides and can be attached vertically or horizontally.

These signs are compliant with the North Whitehall Township ordinance that sets the standards for displaying your street address.

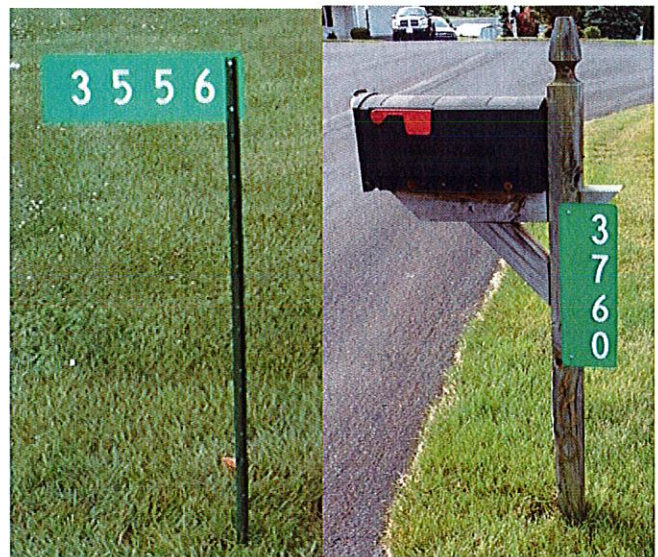

The signs should be installed directly in front of your house or at the end of your driveway. They can be attached to a post or mailbox and should be high enough to be seen above the snow in winter.

If your mailbox is across the street from your home the sign must be installed on a separate post in your yard.

If you want to place an order or would like more information, you can contact the NOVA (Northern Valley Ambulance Corp) business office at 610-262-1075 during business hours, Monday through Friday, 8:00 AM – 4:00 PM.

To order a sign please use the order form below.

Your fire company will contact you when your sign is ready and you can make arrangements to pick it up. They will have more information on where and how to install the sign.
